ABOUT THIS CHEAT SHEET

INFORMATION ON ABBREVIATIONS AND SCORING SYSTEMS

Stats show how we project the player will produce per game when healthy and in a starting, full-time role. Rankings aren't based purely on projected numbers, however. They're adjusted to account for other factors, such as upside potential. Yardage rankings (Y) based on 6 points for TDs, 5 for TD passes, 1 point per 15 rush/rec yards, and 1 point for 30 passing yards. The rankings don't change significantly if TD passes are increased or decreased by 1 point, nor if the yardage parameters are changed to 10 and 20 yards. Basic rankings (B) show value in TD-only leagues. To see this page sorted for Basic Leagues, order the internet version.
